

Superintendent's Message – June 2018

As the 2017-18 school year draws to a close, it is time to look back and reflect on the previous year. After all the graduation and end of year celebrations end, one way to look back is to look at a yearbook or similar publication.

This year you will find our annual report posted on the website. It is entitled, “Our Students, Our Future”. Each of our schools and departments contributed to provide our community with a way to look back and reflect on celebrations, and performance.

Each year in education, we have the chance to renew and prepare for the upcoming year. I hope you will take an opportunity to review the elements of excellence included in the report. I want to especially thank Tammy Pritchard for her talented crafting of the content.

Our Students ~ Our Future ~ Our Story
